RENTAL MOBILITY SCOOTERS.

Customer's responsibility.

The customer must provide safe and secure storage near a power point, and ensure the batteries are recharged over night after each trip.

The scooter must be used safely and carefully to avoid hurting themselves or other people. Be aware of your legal obligations. You can be fined if you cause an accident. Please see the LTSA brochure.

The customer must report any defect or fault on the scooter, to ensure the machine is maintained in a safe and reliable condition.

If the customer damages or crashes or otherwise harms the machine, then it could be taken of them. They could also be liable for the cost of repairs. If you have contents insurance, advise the insurance company, and get them to cover it.

The customer is responsible for ensuring that the weekly rent is paid on time, and to make sure that the rent payments are kept up to date.

Do not let children drive the mobility scooter.

The rental rate can be up to \$75.00 per week, if the term of the rental is less than 3 months. If the term is longer than 3 months then the rental will be from \$25.00 per week.

ScooterWorks Responsibility.

The rental covers all maintenance and repairs necessary to keep the scooter in a safe and reliable condition, if the machine is being used in a safe and careful way.

The rental covers puncture repair and tyre replacement if needed.

The rental includes a loan machine if a breakdown occurs.

The rental covers replacement batteries if the batteries become faulty.

We also like to talk over the rental with the family, to ensure the safety of the customer.

We will ensure that the customer has a mobility scooter, that they feel secure on, with comfortable seating.

If Scooterworks feel that the machine is dangerous or is being used in a dangerous manner, then we reserve the right to remove the machine from the customer and cancel the rental.
