

# Alegio

Alegio – the high quality, low cost solution for care homes. The stylish Scandinavian design makes it ideal to use within a residential unit or at home. The Alegio has an extensive height adjustment range and is easy to use. The bed provides a full range of clinical positions, is simple to assemble or dismantle, and has a 2 year warranty on parts and labour and a lifetime warranty on frame. Its simple function and design exceeds the CE Standards.

- Designed for patient care - Its extensive height range makes it easy to use for both carer and client allowing for greater accessibility for patient care and transfers. It features a hi-lo function with an exceptional height range of 36cm-80cm, an electric backrest and knee-break, and an adjustable foot end. All features are on the easy to use push button remote control. There are a wide range of accessories and options available to complement Alegio's functional design.
- Stylish and Practical - It's easy to use, smooth, silent operation ensures reliability at all times. The base and frame can be easily disinfected and cleaned to prevent cross infection.
- Easy to transport - Assembling and dismantling the bed is very simple with slide-in or lock-in features and no tools are required. All this can be done by one person.

## Optional extras

- Cotsides (left & right sold separately)
- Lifting pole
- IV pole
