

**Yes, you can.<sup>®</sup>**

## **> Invacare<sup>®</sup> *Etude<sup>®</sup> Medley and Select***

### **Practical patient care and attractive design**

The ***Etude<sup>®</sup> Medley*** from *Invacare<sup>®</sup>* offers the perfect balance of budget, functionality and quality requirements. With the switch of a button, a four-sectioned electrical mattress support allows for a range of height combinations providing the ideal positioning for treatment and posture support. The *Invacare<sup>®</sup> Medley Select* is available in a lovely beech finish for a homely feel that will integrate into any environment. Both beds are easy to transport and simple to assemble.

## More work done in less time

The *Invacare® Etude® Medley* has been specially designed for quick transportation in the transient working environments of nursing homes and medical centres. As an option, it comes equipped with a special transport adapter so that the bed can easily be collapsed, moved and re-installed in various locations. In addition, any assembling can be done without the use of tools or technicians, saving you time, money and effort.

## Height is no longer an issue

The flexible design of the *Etude® Medley* allows the bed to be mounted at an extra low height or a higher position, creating a range of working heights for the carer and transfer heights for the patient. This is facilitated by the unique feature of the bed end, which enables the mattress support to be mounted at both upper and lower positions.

### Options

**NEW**

The *Etude® Medley Select* comes in an attractive, homely design. The leg support is equipped with Rastofix to enable individual positioning of the leg support. *Etude® Medley Select* can easily be collapsed and stored on a transport adapter for moving and storage.

**Double height positions on bed ends**

Adjustable height ranges of 33 - 73 cm or 40 - 80 cm are available.
